

BUILDING SOLUTIONS TOGETHER

WHO WE ARE

The O'Connor Group provides industrial structural services for the real estate, industrial, mining and infrastructure sectors.

We are a great alternative for the dynamic Canadian market, building around values and a highly specialized team.

Our **deep knowledge of the metalworking market** allows us to have a team conformed of engineers, calculators, managers and / or site residents, suitable for each type of project depending on the complexities of the job.

HOW WE WORK

Our service journey

Site visit

Briefing on the client needs

Consideration over weather conditions

Consideration over materials and systems

Analysis and design

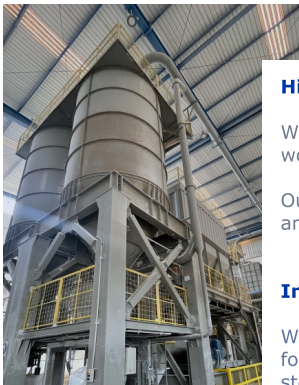

Client feedback
